COURSE OUTCOME

SI No.	Course Name	Course Code	Issue Addressed
1.	Introductory	ECNHC 101	: To understand the basic principles of micro -
	Microeconomics		economic theory.
			: To understand the micro economic concepts.
2.	Mathematical Methods	ECNHC 102	: To understand basic application of Mathematics in
	for Economics-I		the economic analysis particularly on micro economic
			and macro-economic theory.
3.	Introductory	GE-1	: To acquire the knowledge of the basic concepts of
	Microeconomics		macroeconomics.
			: To discuss the preliminary concepts associated with
			the determination and measurement of aggregate
			macroeconomic variables.
4.	Introductory	ECNHC 201	: To understand basic application of mathematics in
	Macroeconomics		the economic analysis.
5.	Mathematical Methods	ECNHC 202	: To formally analysis the behavior of individual agents
	for Economics-II		, ,
6.	Introductory	GE-2	: To understand the basic concepts of macro-
	Macroeconomics		economic analysis, particularly the consumers.
7.	Essentials of Macro	ECNHC 301	: To know how macroeconomic problem can be
	Economics		analyze through formal modeling.
			: To discuss various alternative theories of output and
			employment determination in a closed economy.
			: To introduce the student to various theatrical issues
			related to open economy.
8.	Essentials of Macro	ECNHC 302	: To provide the knowledge about the basic concepts
	Economics		of statistical methods and how this methods are used
			in the economic analysis.
			: To deal with the basic concept and terminology that
			is fundamental to statistical analysis and influence.
9.	Statistical Methods for	ECNHC 303	: To give the conceptual clarity to the student coupled
	Economics		with the use of mathematical tools and reasoning.
			: To cover the advanced micro economic analysis like
			general equilibrium and welfare, imperfect markets,
			market failure.
10.	Indian Economy-I	ECNGE 3.1	: To acquaint with the major trends in economic
			indicators in India in the Post-Independence period.
11.	Advanced	ECNHC 401	: To give the conceptual clarity to the student coupled
	Microeconomics		with the use of mathematical tools and reasoning.
			: To cover the advanced micro economic analysis like
			general equilibrium and welfare, imperfect markets,
			market failure.
12.	Advanced	ECNHC 402	: To get the knowledge of about the long run dynamic
12.	Macroeconomics	ECINITIC 4UZ	issues like growth and technical progress.
	iviaci decononiics		: To provide the knowledge about the various schools
			of macroeconomics thoughts like classical, Keynesian,
			Post Keynesian thoughts.
I			rost keynesian thoughts.

13.			=01.11.0 100	
Second Society Seco	13.	Introductory	ECNHC 403	: To understand the basic econometrics concepts and
Concepts of hypothesis testing, estimation and diagnostic checking of simple regression models.		Econometrics		·
diagnostic checking of simple regression models.
